Security Access Control Portal

SAFEGUARDS TECHNOLOGY LLC

DETER - DETECT - DELAY

NEW

Part Number STL-2006-2DLV

Product Description

The STL-2006 -2DLV is a security access portal with dynamic software. This secure portal system will recognize a potential weapon left behind that maybe taped to the ceiling, floor, doors or side panels as small as 6 ounces. When a metal object is detected, the chamber will remain closed until the proper authority can make a visual identification and make an informed decision. The security portal can be integrated with any existing access control system.

Features/Benefits

- ➢ Metal detection as small as 6 ounces
- ➢ Ballistic resistance glass – Level III (28mm)
- ➢ 10 second cycle
- ➢ One person per cycle (no piggyback entry)
- ➢ Multi-level and high security capabilities
- ➢ Extremely reliable system
- ➢ Integrated with any existing access control system

Technical Data

Dimensions	59" diameter X 94" height
Weight	2,650 pounds +/-
Glass	Ballistic resistance – Level III = 28mm
Entry Width	32" – meets ADA requirements
Voltage	120VAC/220VAC 60Hz (50Hz available)
Back-up Battery	Life is estimated to be 4 hours
Speed	6 people per minute (10 second cycle)
Approvals	TSA, Homeland Security, FAA, US State Department
