**Our Price:**\$8.99

Gain the Upper Hand in Foot and Auto Pursuits!

Set of 10. Each road spike is about 1.25 inches. Designed to always have one point vertical. Can be used defensively to protect a path or perimeter.

A caltrop (also known as jack rock, star nail, crow's foot, partisan nails, or in Japanese: makibishi or Tetsubishi.) is an antipersonnel weapon made up of two (or more) sharp nails or spines arranged in such a manner that one of them always points upward from a stable base (for example, a tetrahedron). They may be thought of as the landmines of antiquity useful to shape the battlefield and force the enemy into certain paths and approaches, or to provide a passive defense as part of a defensive works system. Caltrops serve to slow down the advance of horses, war

elephants, and human troops. It was said to be particularly effective against the soft feet of camels. In more modern times, caltrops are used against wheeled vehicles with pneumatic tires.

### **What is Pepper Spray?**

Pepper spray is an inflammatory. **It causes immediate closing of the eyes, difficulty breathing, runny nose, and coughing.** The duration of its effects depend on the strength of the spray but the average full effect **lasts around thirty to forty-five minutes**, with diminished effects lasting for hours.

Pepper spray (also known as OC spray - from "Oleoresin Capsicum") is a chemical compound that irritates the eyes to cause tears, pain, and even temporary blindness and is used in riot control, crowd control, and personal self-defense, including defense against dogs and bears.

The active ingredient in pepper spray is capsaicin, which is a chemical derived from the fruit of plants in the Capsicum genus, including chili peppers.

### **Undercover Bracelet Handcuff Key**

**Our Price:\$17.95**

Secret Handcuff Key Undercover Bracelet

*Don't go undercover without it!*

A leading federal law enforcement agency asked us to invent a special emergency handcuff key for their undercover operatives. The Secret Handcuff Key Bracelet is the result. This unique handcuff key is designed to always be situated at the optimum location for access and deployment – right next to the wrist. Disguised as a common “gummy bracelet”, this rubbery flexible bracelet won’t draw even a second glance when worn in most environments. This device is completely non-metallic, even the key portion. The key, which is permanently affixed to one end of the bracelet, serves as the connector joining the two ends. The key is not visible when the bracelet is worn. It is quickly accessed by just yanking on the bracelet, exposing the key.

Features a universal handcuff key that opens 99% of handcuffs in the world.

Available in matte black color only at this time.

ONE SIZE FITS ALL. The bracelet accommodates wrists up to 10”, and can be cut down to fit.

Weight: 0.2 oz.

Patent Pending.

Made in USA.
